

Ghanshyam Patidar

Email: ghanshyampatidar3011@gmail.com

Mob: +91 7566650644

OBJECTIVE

To take up responsibility with an organization where my personal potential can make a meaningful contribution to the organization's success as well as self development.

SKILLS

- **Data Structures and Algorithms (DSA):** Proficient in data structures and algorithms, with over 150 LeetCode problems solved.
- **Frontend Development:** Skilled in frontend development with experience using JavaScript libraries like Chart.js and D3.js, and frameworks such as React.js.

PROJECTS

Project	:	COWIN Dashboard – Self Learning	(Link)
Role	:	Frontend developer	
Description:	:	As a Frontend Developer and Data Analyst, I gathered requirements, processed JSON data, and built the COWIN Dashboard. Utilizing HTML, CSS, JavaScript, Chart.js, and D3.js, I created dynamic visualizations analyzing vaccination trends, demographics, and geographic distributions. This included graphs for age, gender, type, state/UT coverage, registration trends, and rural-urban disparities. These visualizations provided valuable insights for decision-making during the pandemic.	
Tools	:	HTML, CSS, Javascript, Chart.js, D3.js.	
Project	:	AndroidCLI – An Android Terminal (Team Project)	(Link)
Role	:	Frontend developer	
Description	:	Developed an Android terminal app using React Native, supporting commands like `mkdir`, `rmdir`, `write`, `ls` etc., with command history and auto-completion. Led core development and interface design for seamless, user-friendly functionality. This project replaced bulky 15.6-inch laptops with 6-inch smartphones, making terminal commands accessible to more people and reducing costs from \$800 to \$200, significantly enhancing portability and accessibility.	
Tools	:	React Native.	
Project	:	An Ecommerce Website – Self learning	(Link)
Role	:	Frontend developer	
Description	:	As the sole developer of an Ecommerce Website, I crafted a seamless online shopping experience using CSS, HTML, and JavaScript. Leveraging LocalStorage, I implemented a robust system to store cart details, allowing users to add and remove items with ease. The website features intuitive navigation, product browsing, and a user-friendly cart management system. Customers can effortlessly add items to their cart and remove products as	

Tools : needed, enhancing their shopping experience.
HTML, CSS, Javascript.

EDUCATION

Qualification	College/Institutes	Board/University	Year	Aggregate
